KIDS IN CARE JOB SEARCH SUPPORT FUND

Kids In Care is available to pay up to 150 hours of child care per family.

FREE child care for qualifying families!

For eligibility requirements and an application please contact Abby Jarman at Care About Child-care

(A program of Children's Service Society)

Phone: 801-326-4399 KIC@cssutah.org
www.cssutah.org/kids-in-care

The goal of the Kids in Care Job Search Fund is to ensure that recently parents have access to regulated child care at no cost while they engage in formal job search activities. Do you have a parent in your program that could use some help?

TOPStar—TeachingObesityPreventionin Childcare Settings – is a program developed by the Utah Department of Health, local health departments, and other partners to help prevent obesity among children in childcare. The goal of TOP Star is to help childcare providers improve their nutrition and physical activity environments.

The TOP Star Program consists of two components:

- A training course, which is available through local health departments and Care About Childcare agencies,
- A consultation and technical assistance program, which is available through local health departments.

As part of both the training and technical assistance programs, childcare providers complete a self-assessment describing the nutrition and physical activity opportunities available at their centers. (Preschools please complete the preschool assessment form.) Child-care providers electing to complete the full TOP Star program receive in-depth technical assistance with a trained local health department consultant, who helps identify strategies for improving nutrition and physical activity in the childcare setting and shares resources to help providers meet their goals. The technical assistance program is available free of charge to any childcare provider that chooses to enroll. Upon completion of a process that

includes self-assessment, goal setting, and the implementation of an action plan, childcare providers who demonstrate improvement in physical activity and nutrition environments are eligible to receive a TOP Star endorsement.

The TOP Star endorsement helps childcare providers promote and market their achievements in physical activity and nutrition to parents and can be noted on the Care About Childcare website.

The endorsement is valid for three years. After three years, endorsed childcare providers are encouraged to reapply for endorsement, which involves completing a new self-assessment.

An online training is available for providers who prefer a self-study format or are located in areas where TOP Star classroom-based courses are not readily available.

Utah's TOP Star program is based on the Nutrition and Physical Activity Self Assessment for Child Care (NAP SACC), an evidence based assessment tool developed by the University of North Carolina at Chapel Hill. TOP Star was adapted to

include an infant and toddler component and a breastfeeding support component.

Find out more about the benefits of TOP Star, see the Success Stories webpage, which features stories from childcare providers who have completed the training and technical assistance program.

To find TOP Star training courses in your area, contact your local Care About Childcare agency or your local health department.

These classes review the application process and the steps required to obtain a license. These classes are general classes that can be attended by any provider seeking a license.
All New Provider Trainings will be offered as an online class only.

New center directors are required to attend a New Center Director Training.
This class reviews what the expectations are for compliance with the rules and the responsibilities of the directors.

No children are allowed in classes.
These trainings are not conducive to children and are geared for adult learners. Children may be disruptive and make it hard for others to listen. Please make other arrangements for your children.

Child Care and Americans with Disabilities Act

The Americans with Disabilities Act (ADA) is a federal civil rights law that Congress passed in 1990. Among other things, the ADA prohibits discrimination by child care centers and family child care providers against individuals with disabilities.

The ADA requires that child care providers not discriminate against persons with disabilities on the basis that they provide children and parents with disabilities with an equal opportunity to participate in the child care programs and services.

The ADA requires that child care providers provide an equal opportunity for each child to participate in the child care program and services.

For further information and details visit ada.gov. On that website you can find a list of common questions regarding child care and ADA.
