by the Federal Child Care and Development  
Fund, the Department of Workforce Services,  
and the Office of Child Care*

# SALT LAKE & TOOELE COUNTIES SUMMER ACTIVITY GUIDE 2018

Dear Community Affiliate,

Please enjoy this copy of our 2018 Summer Activity Guide. The information included is to provide parents with resources for programs and activities that run during out-of-school times. Please feel free to share this information with parents who may contact you looking for summer activities. Parents- or you- may receive additional copies of our 2018 Summer Activity Guide by visiting our website at [www.cssutah.org](http://www.cssutah.org).

---

Dear Parent,

**Care About Childcare at Children's Service Society (CAC - CSS)** - compiles a Summer Activity Guide each spring to assist you in arranging quality summer programs for your child. There are a variety of programs and activities listed. Some programs offer full-time as well as part-time schedules, some focus on the development of a specific skill, while others are classes and activities that may require your child to be accompanied by a parent or guardian (such as public libraries or swimming pools). If you are unable to find one specific program to meet all of your needs for the entire summer, you may consider enrolling your child in several programs that each run for a part of the summer.

Program costs vary depending on the age of the child, hours enrolled, and type of facility. Cost information is not provided on this list. Phone numbers have been included for each program so you can call and get all necessary information and details about the program.

**CAC - CSS** cannot guarantee quality or recommend one program over another. We accept no responsibility or liability for any programs or activities listed. We believe that you are in the best position to observe and select the site that best meets the needs of your child. We encourage you check out any program before enrolling your child and to continue to monitor the program for the entire time that your child is enrolled.

We realize that this is not a comprehensive list. We have tried our best, with the resources available to us, to include as many programs as possible. If you know about a program that has not been included on this list, have other childcare needs, or would like information for areas outside Salt Lake & Tooele Counties, please contact us at **801-355-4847** or **1-866-438-4847**, or visit us online at [CareAboutChildcare.utah.gov](http://CareAboutChildcare.utah.gov)

Sincerely,

*Care About Childcare at Children's Service Society*

***All Care About Childcare programs are funded by the Federal Child Care and Development Fund, the Department of Workforce Services, and the Office of Child Care.***

# PARENT'S GUIDE TO CHOOSING QUALITY SUMMER CARE

Some programs are not required to be licensed as childcare programs through the State of Utah. These include many summer programs, preschools, and childcare centers operating under the arm of a church. Child Care Licensing does **not** visit these programs to enforce basic health and safety regulations or have the authority to act on complaints made against legally license-exempt facilities.

Below are some checklists to use as a guide for evaluating any program that you are considering for your child. We encourage you to conduct an on-site visit and ask many questions to determine if the level of quality is right for you and your child.

---

## ON-SITE VISIT

- Does the program seem clean, safe, and organized?
- Do the children and youth appear to be happy in the program?
- Does the staff seem to work well together?
- Is the staff respectful of each other?
- Are the children busy with activities?
- Do the children help each other and cooperate?
- Do you hear happy sounds in the program?
- Is the staff engaged with the children?
- Are there adequate supplies, materials, and space for a variety of activities?
- Are there soft spaces for reading, quiet games, and relaxing? Is there space for active play?
- Do the materials and program space reflect diversity?
- Does the space reflect the work and interests of children in the program?
- Does the program provide a rich learning atmosphere?
- Does the bathroom look and smell clean?
- Are all hazardous materials kept out of reach?
- Do food preparation areas look and smell clean?
- Count the number of adults and the number of children they are supervising. Are there enough adults to supervise all of the activities planned?

## ASK YOUR CHILD

- What type of program would you like (i.e. center based, overnight, sport, etc.)?
- What interests would you like to pursue this summer?
- What programs are your friends going to?

## ASK THE DIRECTOR

- Is the program licensed or accredited?
- What is the program's mission and philosophy?
- May I have a copy of your policies?
- What are your fees?
- May I have a copy of the schedule?
- Have all staff members been trained in CPR and First Aid?
- Have all staff members been trained in child development?
- How are families involved in the program?
- Do you have an orientation for new families?
- Do you offer any discounts or financial assistance?
- Do you serve children with special needs?
- How does the program support children's education and learning?
- How long has the program been in operation?
- What percentage of children return each year?

## ASK THE STAFF

- What is your system for knowing where my child is at all times?
- What is your procedure for handling emergencies?
- How do you handle sick children?
- Are children able to get a drink or use the bathroom when needed?
- How do you handle children with behavior problems?
- How do you encourage children's independence and self-esteem?

## ASK THE CHILDREN

- Do you like coming here?
- Are you able to choose what activities you want to do and with whom?
- Do you help plan activities?
- Do the children here get along well with each other?
- Do you feel safe here?

## COMMUNITY RESOURCES

### Child Care Licensing Program

Provides complaint history of State regulated childcare providers.  
(801) 273-6617 or 1-888-287-3704

### The Information & Referral Center

Connects the community to human service agencies, governmental offices, and professional organizations throughout Salt Lake and Tooele.  
211 or (801) 978-3333

### Child Protective Services

To report suspected child abuse.  
(855) 323-3237

## Additional Resources

### American Camp Association:

Find additional overnight and travel camps outside of Salt Lake by visiting:

[www.acacamps.org](http://www.acacamps.org)

### Volunteer Match:

Some teens may benefit from providing volunteer service throughout the summer. Find out what opportunities are available in your area at:

[www.volunteermatch.org](http://www.volunteermatch.org)

### Kids in Danger:

Protect your children from dangerous products that have been recalled by visiting:

[www.kidsindanger.org](http://www.kidsindanger.org)

### Car Seat Safety:

Always use car seats and seat belts when driving to your summer destinations. To find inspection locations call 385-468-3879 or visit:

[www.seatcheck.org](http://www.seatcheck.org)

### No Bored Kids Calendar:

Find free ongoing activities in your area by visiting:

[www.utahfamily.com](http://www.utahfamily.com)

### American Academy of Pediatrics:

Find articles on child development, health, and safety for all ages and stages at:

[www.healthychildren.org](http://www.healthychildren.org)

### Learn to Live Healthy:

Encourage healthy habits in your children this summer. Find tips at:

[www.intermountainlive.org](http://www.intermountainlive.org)

### YMCA of Greater Salt Lake:

Visit [www.ymcautah.org](http://www.ymcautah.org) for information on volunteer opportunities and after-school programs for your children.

### The National Council on Fireworks Safety:

In Utah, fireworks go on sale starting June 20.

Learn how to keep your family safe at:

[www.fireworksafety.com](http://www.fireworksafety.com)

### The Family Travel Network:

Find affordable, child-centered summer vacation ideas at:

[www.familytravelnetwork.com](http://www.familytravelnetwork.com)

## Checklist for Leaving Older Children Home Alone

### Physically, is your child able to:

- Lock and unlock doors and windows in your home?
- Do self-care tasks; such as, making a sandwich, using the phone, and writing messages?

### Mentally, does your child:

- Tell time?
- Recognize danger and know when to get help?
- Understand clearly what "STRANGER" and "EMERGENCY" mean?
- Solve problems on his or her own?
- Consider how his or her actions affect others?

### Socially, does your child:

- Solve conflicts with siblings with little help from adults?
- Talk easily to you about school, friends, and about his or her feelings?
- Feel confident enough to contact an adult if a problem arises?

### Emotionally, does your child:

- Feel confident and secure when alone?
- Seem willing to stay alone for short periods? For longer periods?
- Know how to handle fear, loneliness, or boredom?
- Handle responsibilities, such as going to school on time?
- Know how to look out for younger siblings?

### Before you leave your child show them:

- Where things are in the house and how they work (furnace, circuit breaker, etc.).
- Where the flashlight and first aid kit are located.
- Things in the house that may make strange noises.
- How to be safe in the kitchen, including turning off the stove.
- Who to call or where to go if there is a problem.
- What they need to do as soon as they get home (lock the door, call you, etc.).
- What gas smells like when it is leaking (if applicable) and what to do.

### Practice with your child:

- Safe ways to answer the phone and the door.
- How to get out if there is a fire.
- Locking and unlocking doors.

### Prepare for your child:

- A phone list of people they know well, whom they can call if they need help.
- A list of house rules (for moments when friends arrive at the door).
- Healthy snack foods they can prepare without cooking.
- An extra key hidden outside in case they lock themselves out.
- Fun things for each child to do when they get home.
- Leave on lights or radio as pre-planned with them.

### Protect your child:

- Lock up medicines, alcohol, and weapons.
- Install smoke detectors and make sure they work.
- Let them know what time you will be home; call if you will be late.
- Ask them how things went; allow them to suggest changes in these plans.

# SWIMMING SAFETY TIPS

Taken from <http://kidshealth.org/kid/watch/out/water.html>

## Why is it important to be safe in the water?

Fish are able to live and breathe under water, but people need air to breathe. People drown when too much water gets into their lungs. When that happens, the lungs can't carry enough oxygen to the brain and the rest of the body.

Drowning is the second most common cause of death from injuries among children under the age of 14. Drowning can happen very fast, sometimes in less than 2 minutes after a person's head goes under the water. That leaves very little time for someone to help. Many drowning and near drowning accidents occur when a child falls into a swimming pool. But accidents can happen anywhere, at someone's home or even at your own house, and that's why you need to know how to be safe around water.

## Swimming pools

Pools are awesome! What could be better than a dip in the pool and fun in the sun? But remember a pool's sides and bottom are usually made of concrete, a rock-hard material. A slip or fall could be painful and dangerous.

Have you seen those big numbers painted on the side of the pool? Those are called depth markers- they tell you how deep the water is at that point. You should always look before you jump into a pool. You should also only dive off the diving board. The water may be shallower than you think. If you hit the bottom...ouch! You might get knocked out or you could hurt your neck very badly.

Test the pool's water temperature before you plunge in. Cold water can shock your body and make your blood pressure and heart rate go up. You might open your mouth to yell and accidentally breathe in some water. Cold water can also slow your muscles, making it hard to swim.

## Advice to remember

- Always have an adult watch you when you are in the pool- even in your own backyard. Never go in the pool if there is no adult around.
- Gates are around pools for a reason- to keep Children away from the water when there is not a lifeguard or adult around to watch them. **Never** go through any pool gates when they are closed. Stay safe and stay out!
- Always obey pool rules.
- Swim with a buddy.
- If you're learning to swim, ask your mom or dad to make sure your flotation devices are Coast Guard approved.
- Walk slowly in the pool area. Don't run.
- Swim at a depth that is safe for you. If you're just learning to swim, stay in the shallow end.
- Don't jump on others or push others into the water. You could accidentally hurt someone or yourself.
- Toys to help you float come in many shapes and sizes (an inner tube, air mattress, or beach ball, for example). Although they are fun and can help you while you learn to swim, what they **can't** do is save a life. They're toys that can lose air or float away.
- Don't chew gum or eat while you swim- you could choke.

# BIKE SAFETY TIPS

Bike riding is a great way to get exercise and fresh air and share time as a family. Before you and the children rush out and start pedaling, there is an important factor that you need to consider- safety.

## Helmet Basics

Bicycle helmet use should not be optional for anyone in your family, no matter where you are or how short the ride. In many states, it is the law.

Here is why: Most bike accidents involve a head injury, so a crash could mean permanent brain damage or death for someone who does not wear one while riding. In fact, each year in the United States, about half a million children are seriously injured in bicycle-related accidents, and most of those injuries could have been avoided if a helmet was worn.

Here are some things to keep in mind when buying a helmet:

- Pick bright colors that are visible to drivers and other cyclists.
- Look for a helmet that's well ventilated.
- Make sure that the helmet has a CPSC or Snell sticker inside. These indicate that the helmet meets standards set by the Consumer Product Safety Commission (CPSC) or the Snell Memorial Foundation, a nonprofit group that tests helmet safety.
- Make sure your child's helmet fits correctly and can be adjusted.

A helmet fits well if it:

- Sits level on the head.
- Isn't tilted forward or backward.
- Has strong, wide straps that fasten snugly under the chin.
- Is tight enough so that after fastening, no sudden pulling or twisting could move it around.

You should be able to get help finding a well-fitting helmet and adjusting it properly at any bicycle store.

When children wear a helmet, make sure that the straps are fastened. Also, make sure they don't wear any other hat underneath it.

Be sure to replace any helmet made before 1999. If your child hits any surface hard while wearing a helmet, replace it-, helmets lose their capacity to absorb shock after taking serious hits.

Some bike helmets can be used as protection for other activities, but in general, they are best suited to biking. Most helmets are made for one specific type of activity- for example, special helmets also are made for inline skating, baseball, and snowmobiling.

Children should not wear any helmet when they are on a playground or climbing a tree- there is a risk of strangulation from the chinstrap during these types of activities.

## Safe Clothing

What children wear when riding a bike is also very important for safety:

- Fluorescent or bright-colored clothes will help children be visible on the road. Avoid dark clothes, especially during early dusk and twilight hours.
- Lightweight clothes will help them avoid becoming overheated.
- Pant legs should not be too loose fitting or flared. These can get caught up in the chain while riding.
- If your child wears a backpack while riding, make sure the straps are tied up and can't get tangled in the spokes of the wheels.
- Choose shoes that grip the bike's pedals. Cleats, shoes with heels, or flip-flops can all create problems while riding. Children should never ride barefoot!

Taken from [http://kidshealth.org/parent/firstaid\\_safe/outdoor/bike\\_safety.html](http://kidshealth.org/parent/firstaid_safe/outdoor/bike_safety.html)

# RULES OF THE ROAD FOR BIKE RIDING

Here are some must-know safety tips to teach children:

- Stop at all stop signs and obey traffic lights just as cars do.
- Yield to pedestrians, stop at red lights, and be especially careful at intersections.
- Always ride in the same direction as cars do. Never ride against traffic.
- Older children should try to use bike lanes or designated bike routes whenever you can — not the sidewalk!
- Never ride at dusk or in the dark.
- Always stop and check for traffic in both directions when leaving a driveway, an alley, or a curb.
- Watch traffic closely for turning cars or cars leaving driveways.
- Don't ride too close to parked cars — doors can open suddenly.
- Always walk a bike across busy intersections using the crosswalk and following traffic signals.
- When riding in a group, always ride single file on the street.
- When passing other bikers or people on the street, always pass to their left and call out "On your left!" so they'll watch for you.
- Never share the seat with a friend or ride on the handlebars — only one person should be on a bike at a time. It's easy to lose balance or suddenly swerve into traffic when riding with a passenger.
- Never wear headphones while biking — it's essential to hear everyone else on the road at all times.
- Never stand up while riding a bike.
- Never hitch a ride on a moving vehicle.
- Never change directions or lanes without first looking behind you, and always use the correct hand signals. Use your left arm for all hand signals:
  - **Left turn:** After checking behind you, hold your arm straight out to the left and ride forward slowly.
  - **Stop:** After checking behind you, bend your elbow, pointing your arm downward in an upside down "L" shape and come to a stop.
  - **Right turn:** After checking behind you, bend your elbow, holding your arm up in an "L" shape, and ride forward slowly. Or, hold your right arm straight out from your side.

## Bike Maintenance

Check your child's bike at least once each season to keep it safe and well-maintained. Be sure to check:

- Tires — inflate to the pressure that's recommended on the sidewall of the tire
- Chain — oil it regularly and remove dirt
- Handlebars — adjust for height as your child grows and tighten all bolts
- Brakes — check for frayed cables and replace worn-out brake pads
- Seat — keep the seat level and adjust for height as needed

## Making Safety a Family Affair

One of the best ways to help children learn safe bike riding is to set a good example. Always follow the rules of the road yourself. It is most important that you always wear your helmet.

Go for bike rides with your children so you can show them what safe riding looks like. It's also a great way to stay active as a family and get valuable together time that you'll all enjoy!

# SUN SAFETY TIPS

Taken from [www.healthychildren.org](http://www.healthychildren.org)

Follow these simple rules to protect your family from sunburns now and from skin cancer later in life.

- Keep babies younger than 6 months out of direct sunlight. Find shade under a tree, umbrella, or the stroller canopy.
- When possible, dress yourself and your children in cool, comfortable clothing that covers the body, like lightweight cotton pants, long-sleeved shirts, and hats.
- Select clothes made with a tight weave - they protect better than clothes with a looser weave. If you're not sure how tight a fabric's weave is, hold it up to see how much light shines through. The less light, the better.
- Wear a hat or cap with a brim that faces forward to shield the face.
- Limit your sun exposure between 10:00 am and 4:00 pm, when UV rays are strongest.
- Wear sunglasses with at least 99% UV protection (look for child-sized sunglasses with UV protection for your child).
- Set a good example. You can be the best teacher by practicing sun protection yourself. Teach all members of your family how to protect their skin and eyes.
- Use sunscreen. Remember: sunscreen can help protect the skin from sunburn and some skin cancers, but only if used correctly. Sunscreen should be used for sun protection, not as a reason to stay in the sun longer.

## How to Pick Sunscreen

- Use a sunscreen that says "broad-spectrum" on the label - that means it will screen out both UVB and UVA rays.
- Use a sunscreen with an SPF (sun protection factor) of at least 15. The higher the SPF, the more UVB protection the sunscreen has.
- Look for the new UVA "star" rating system on the label.
  - One star is low UVA protection.
  - Two stars is medium protection.
  - Three stars is high protection.
  - Four stars is the highest UVA protection available in an over-the-counter sunscreen product.
- For sensitive areas of the body, such as the nose, cheeks, tops of the ears, and the shoulders, choose a sunscreen or sunblock with zinc oxide or titanium dioxide. While these products usually stay visible on the skin even after you rub them in, some now come in fun colors that children enjoy.

## Sunscreen for Babies

- For babies younger than 6 months: Use sunscreen on small areas of the body, such as the face and the backs of the hands, if protective clothing and shade are not available.
- For babies older than 6 months: Apply to all areas of the body, but be careful around the eyes. If your baby rubs sunscreen into her eyes, wipe the eyes and hands clean with a damp cloth. If the sunscreen irritates her skin, try a different brand or try a sunscreen stick, sunscreen, or sunblock with titanium dioxide or zinc oxide. If a rash develops, talk with your child's doctor.

## How to Apply Sunscreen

- Use enough sunscreen to cover all exposed areas, especially the face, nose, ears, feet, and hands and even the backs of the knees. Rub it in well.
- Put sunscreen on 30 minutes before going outdoors. It needs time to absorb into the skin.
- Use sunscreen any time you or your child might sunburn. Remember that you can get sunburn even on cloudy days. In addition, UV rays can bounce back from water, sand, snow, and concrete so make sure you're protected.
- Reapply sunscreen every 2 hours. Sunscreen wears off after swimming, sweating, or just from soaking into the skin.

# NEVER LEAVE A CHILD ALONE IN A CAR

During the warm spring, summer, and fall months' children left alone in or around cars are at a higher risk of suffering from dehydration, heat stroke, or dying.

**Remember Hot Weather Poses a Danger for Your Infant and Child. Even on Mildly Warm Days the heat is Dangerous.**

- The interior of cars, even with the windows rolled down, can heat up to dangerous temperatures.
- It takes only 20 minutes for the interior of a car to reach 120 degrees on a 70-degree day.
- After 40 minutes, the interior of the car reaches 150 degrees.
- Left in this situation, infants and children become dehydrated, overheated and can pass out or worse, die.
- *Infants and toddlers are most at risk.*
- 82% of deaths due to heat-related car injuries occurred among children ages 3 and under, according to the U.S. Center for Disease Control.
- On hot or even warm days, **NEVER** leave your child alone in the car.
- We lead hectic lives, but children must be protected.
- Always take them inside with you when doing errands or visiting friends.
- Share this knowledge and rule with others who transport your children – your spouse or partner, babysitter, daycare provider, and other family members.

***Remember, your child is your top priority and keeping him or her safe is essential***

## SAFETY WHEN TRAVELING IN HOT WEATHER

- Dress children to promote airflow around their bodies. I.e., lightweight fabric and light colors.
- When planning long journeys, especially with small children, consider travelling in the cooler hours of the day- Before 10 a.m. or after 5 p.m.
- Plan to stop every two hours so all passengers, including the baby, have an opportunity to move freely.
- In summer when children are wearing lightweight clothing, restraints and harnesses could need to be tightened.
- For rearward-facing restraints, it is **not** recommended that you use a hood to protect the baby from the sun. A hood can reduce airflow around a baby's head that can lead to the baby over-heating. A visor or sunshade is a safer alternative.
- On every trip, long or short, take the time to check your children's safety by re-checking the fit of their harnesses.
- Bring water. Keep hydrated.

## WHAT ARE THE RISKS?

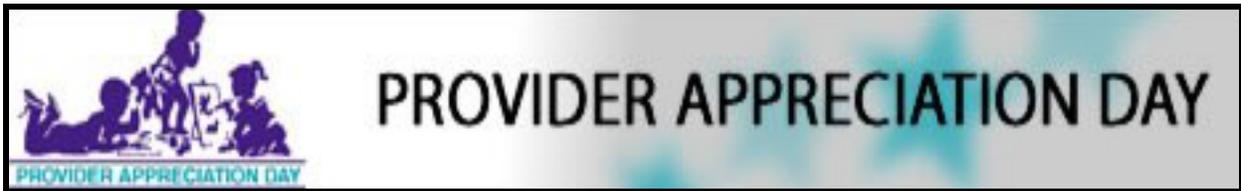

- The temperature and humidity inside the car begin to increase while the airflow decreases.
- As the temperature increases inside the car, the child can begin to develop heat stress (hypothermia) and start to dehydrate.
- Young children are more sensitive to heat than older children and adults. This can put them at greater risk of heatstroke and other health risks.
- If the child becomes distressed and tries to get out of their restraint, they could be at risk of strangulation on the harness.

Do you use child care?

***Friday, May 11th, 2018 is  
National Child Care Provider Appreciation Day***

***Do not let this day go by without a special thank you to the person or caregiver who is so important to you and your child!***

- *Get together with other parents to create a surprise*
- *Send flowers, a potted plant, cards, or a hand written note of appreciation*
- *Take them a cup of coffee when you drop off your child*
- *Bring breakfast or lunch for your caregiver and for the kids*
- *Work with your child to create a special remembrance*
- *Buy something for your provider's play area*
- *Purchase new books for the program*
- *Buy new art supplies for the program*
- *Buy them an item off their wish list*
- *Give them a gift certificate to dinner*
- *Give your provider a paid day off or a bonus*
- *Key in on your provider's hobby and buy her an appropriate gift*
- *Check to see if your employer provides scholarships for toys, equipment or training*
- *Purchase software for the classroom*
- *Invite them over for dinner*
- *Let them know how much you need and appreciate them*
- *Treat them to a week of cleaning service*
- *Help your child make a gift basket*
- *Pay for a substitute so they can take the day off*
- *Help them with preparing the week's activities*
- *Rent them a movie or give them movie tickets*
- *Treat them to a day at the spa*
- *Pool money with other parents to buy a new piece of equipment or a toy*
- *Bring them a cake*

***... there are countless more ideas like these - the sky's the limit! The important thing is to say "THANK YOU FOR ALL YOU DO" not just on Provider Appreciation Day, but often!***

# Programs of Children's Service Society

## Care About Childcare at Children's Service Society

*Promoting quality environments for all children through education and support.*

- Free child care referrals for parents
- Education on choosing a quality child care environment
- Training for child care providers to improve age-appropriate practices, child development, health and safety, and business skills
- Quality Improvement
- Lending Library

For Free Child Care Referrals Call Us at:  
801-355-4847 Or 801-355-7444

## Support Services:

### Grandfamilies Kinship Care

*Are you parenting your grandchildren or other relative's children? Help is available!*

- Brief solution focus therapy
- Support groups
- Family activities for kinship caregivers
- Children's groups
- Links to community resources
- Services available in Salt Lake, Davis, Weber, & Cache Counties

Contact Grandfamilies at:  
801-326-4409 or 1-800-839-7444 or 1-888-275-5660 (Ogden)

### Home Visitation Program

*Empowering parents, with children birth-5, to be their child's first and most influential teacher.*

- Personal visits— a parent educator will share age appropriate child development and parenting information, help you learn to observe your child, and talk about concerns
- Parent Group Meetings— opportunities for parents to learn together and network
- Screenings— assess your child's development including health, hearing, and vision
- Resource Network— link your family to other community services

Contact Home Visitation at:  
801-326-4398 or 1-800-839-7444

### Adoption

- Domestic & International home studies
- Home studies to adopt child in foster care
- Infant adoption program
- Post adoption services
- Birth parent services
- Adoptive family services
- Search and reunion services

Contact Adoption at:  
801-326-4408 or 801-656-8527
